If you haven't seen them yourself, you've read about them — those gorgeous tulip displays that are such a sensational success at the New York World's Fair! Donated by the Holland Bulb Industry and arranged by the country's leading landscape artists, these long-stemmed, vivid beauties have set a new fashion in gardening that will be picked up by gardeners everywhere!

And you can duplicate these displays in your own garden—either completely or on a modest scale! For tulips are easy to grow and require but minimum care. But — for a successful tulip planting — your bulbs must be strong, healthy and top size.

For beds, border or spot planting, FLOWERFIELD's World's Fair Exhibited varieties will give you the same rich effects you saw at the "World of Tomorrow".

All are guaranteed top grade; big — and at prices lower than we have ever offered them before. Check off your selection on the coupon below; tear it off and mail it in today!
